

Looking to expand your horizons?

Look no further than the Learning Zone!

The Learning Zone signposts healthcare librarians and knowledge specialists to key online resources to support their professional and personal development. It is part of the Workforce Planning and Development work stream to implement Knowledge for Healthcare, Health Education England's development framework for NHS library and knowledge services in England 2015–2020.

Resources
fall under the
following three
categories:

**Generic
Skills**
